

PIANDACCOLI
VINI DAL RINASCIMENTO

THE PROJECT

**BRINGING BACK TO LIFE NATIVE VINE
VARIETIES OF RENAISSANCE TUSCANY**

Historic native Tuscan grape varieties that went extinct

The phylloxera epidemic, originating from the Americas and hitting Europe in the mid-1800s, destroyed a third of Europe's vineyards, making numerous varieties extinct.

"Grapes" - Bartolomeo Bimbi, circa 1600 - Medici Museum of Poggio a Caiano

The native Renaissance grape varieties are being recovered through a research project at the University of Florence, which began with the discovery of some grape seeds in the Medici tombs after World War II and continued in the early 1980s with DNA experiments in the Vitiarium of Cortona.

A grape of ***Foglia Tonda***

Giampaolo Bruni

Proveniente dal mercato dei filati di altissima qualità per i grandi brand della moda

- Rinnovo tenuta di famiglia
- Idea di vini di qualità e salutari
- Prof. Bandinelli - Agraria UNI.FI.
- Attilio Pagli - Enologo

THE ESTATE
AN UNIQUE TERROIR

Heterogeneity

Delta of a prehistoric river

- Soil
- Minerals
- Morphology
- Biodiversity

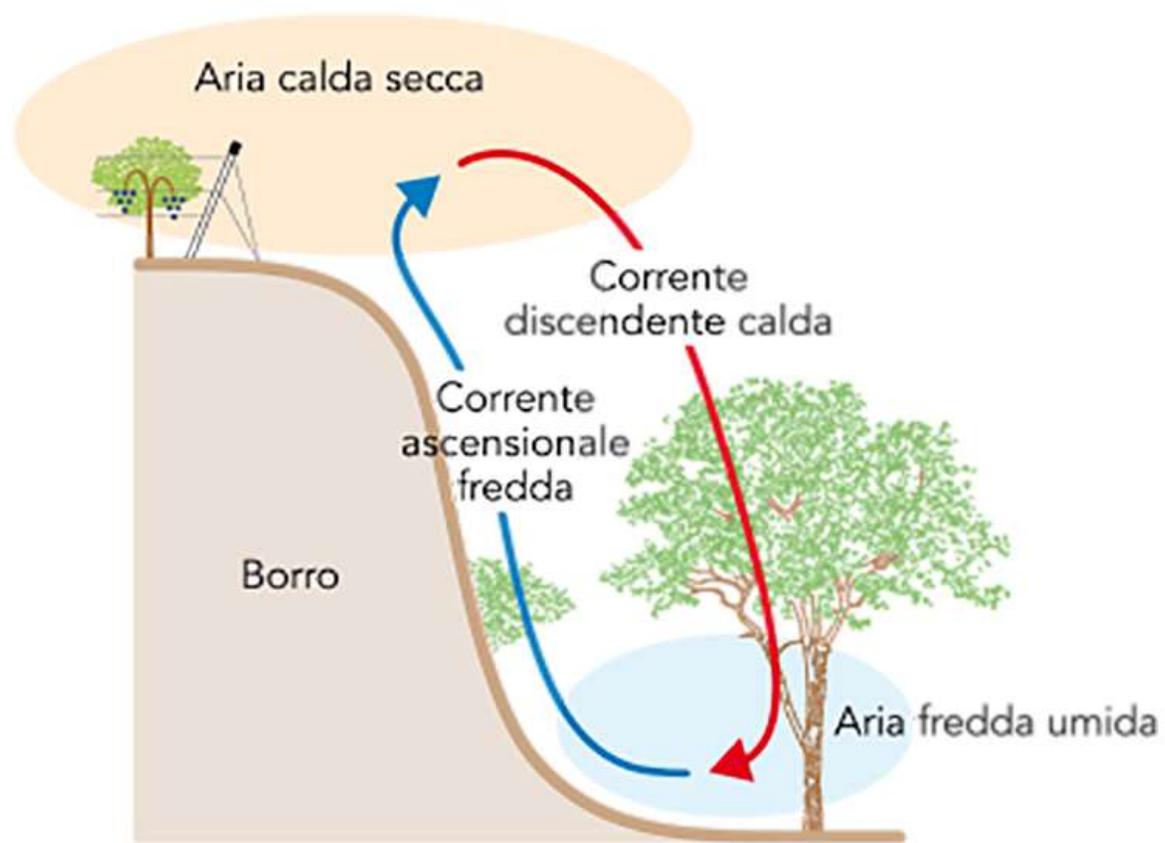

The “Accoli”

The secret of elegance

- Soil balance
- Insect diversity for pollination
- Home to natural pesticides
- Unique microclimate (cyclical effect)
 - Cold updrafts
 - Temperature variations
 - Skin thickening
 - Early phenolic ripening

IN THE VINEYARD

BECAUSE QUALITY COMES FROM THE EARTH

Good practices in the vineyard

Ensuring quality at every step

- Fattoria a circuito chiuso
- Coltivazione biologica
- Preparati biodinamici
- Controllo di ogni vigna e filare
- Interventi manuali
- Raccolta manuale

IN THE CELLAR

**TECHNIQUES AND TECHNOLOGIES AT THE
SERVICE OF DRINKING WELL**

Zero impact

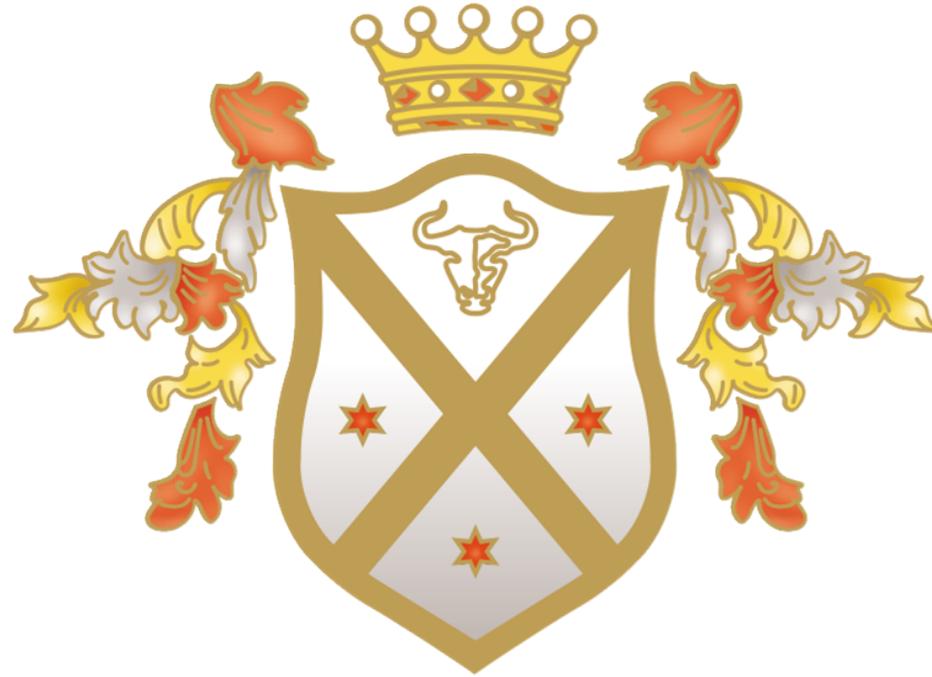

Preserving the quality obtained in the vineyard

- Cutting-edge technologies
- Latest winemaking techniques
- Reduced sulfites
- Preserving the identity, aromas, and flavors of native grape varieties
- Aging in larger oak barrels
- Long bottle aging

Good things take time...
